Online Workshop - The Work of School Council- It's Not About the Meeting!

School Councils often struggle with identifying the types of activities and work they should be doing in order to truly fulfil their legislated role. In this workshop, school councils are encouraged to examine what they are doing in relation to the Assurance Framework, their intended purpose and the intended result of their work, and then consider strategies to enhance the school council's role in the school community, supporting the expectations of legislation and the Assurance Framework.
